MARGARET COMICS

If you had a time-machine
what would you do with it?
7:00
7/14 月 26.6℃ 60%
are there some mistakes that you would like to erase ?
or would you like to meet the future you ?
well, I ...

clatter
and now, let's listen to an announcement from our future government
3 baby dolphins were born in the 20 year-old aquarium
then, let's start today's news
good morning Inui
goo...
ah!
surprised
morning !

did you know the dolphin's babies were born in the old aquarium ?
ah ...
what are you listening to ?
we used to listen in vain to this kind of information, seems like they're still just as meaningless ...
the news for this morning
hmm ...

we are now in 2025...

a time machine will finally be operational

indeed, he announced that after 40 years, that is to say in 2065

to see his future and we have the choice to return to the past only once
it must be noted though that it will be prohibited for any human being
however, for such an announcement not to create chaos at the time when it was filmed, it has only been broadcasted recently
and since that time the world became aware of all of this
like that?
..
they say so many things about it
–
or, students will be able to go study in outer space
there is still so much mystery surrounding the future
some believe we will drive flying cars
as for me, I am not interested in all of this
then I can be a smart girl in Inui's eyes
...
maybe
Shut
but
I am glad to have heard the news

in my opinion,

instead of seeing my future, I prefer to cherish every moment of the present

Whispers
you know, my boyfriend told me ...
that Inui-kun was single !
if you don't confess your love soon, you will regret it, right ?
It's almost summer holiday
wha...
what are you talking about ?!
we can read you like an open book,
we immediately noticed it
Confess ... my love ...
...
it seems like it's going to rain
well then, I'll be going back home with my boyfriend, bye !
Confess ? ...
ah! also ...

Since
the day
"I feel
the
same"
of our
encounter
...

Since the first time our eyes have
to tell you the truth, Haruka I am so happy !
I've always love about you
you
drip
drip
oh!
haa!!
It's raining !!
Crap !
but
why did I suddenly
Shhh...
imagine all of this ? ...
Shhh

What are you doing here?
Splash
Hey!
...This morning, they said it would be sunny..
And now it's raining!
But it will surely stop soon!

He is right..
When the time machine is finally built..
...
They probably won't mistake the weather forecast anymore
Hmm..
The Rain is going away..
But then the phrase,
'caught in the rain' will probably disappear from our world
That's true..

Here.
SFX. *FWUMP*
SFX. *splash splash splash*
What?!
...
Inui
It's.
I just live nearby. So take it.

The following day
July 15th
Umm...
I-I would like to say something to you...
After school..
Can we meet at the park?
...
If you want.
Inui!
Really?!
Good. Then, I'll wait for you there.
Yeah!! That's all I wanted!
Ah..
I've decided!!
Thanks again for the towel!
I will give it back when I finish washing it!
SFX: 3x tap

...
Today, I will
confess my love to him!!
...At least that's what I think.
Because the most important thing is that I should express my feelings
It's okay if he rejects me.

!
July 16th
He
Hello Inui!
About yesterday
Did you have an urgent errand...
Oh.
He won't come

Inui...?
Thank you again for the towel
Also, I'm sorry
because of me you went back home soaked...

Inui..
What?
...
...
No, it's nothing...
Hey?

isn't that Haraki ?
lunch break is about to end ... !
is she crazy ?
this way
come, please
tak
travels in space time
chatter
who among you have already heard about it ?
"Travels in space time"
but we will have a rather special lesson this afternoon
chatter
chatter
It's a bit unexpected
okay ...
chatter

They already talked about it in the news...
but all of this wasn't very clear
Oh! I can see that there are a lot
SFX: Haha
To tell you the truth, I was supposed to talk about all of this yesterday...
but this information was so strange, that I needed time to accept it
Jhmm
Well, you can enter
SFX: Rattle
It seems some people from the future will live with us to continue their studies.
An elite group of students were chosen and they have the right to come and learn about our civilization.
That's why we will welcome one of them, until the beginning of summer holiday

Sorry for this hurried presentation
but unfortunately I won't be able to tell you neither the date of my birthday, nor my blood type, nor my name, nor any information regarding my family
and even less the year where I come from
Nice to meet you, students of 2025.
and I won't be able to reveal to you what happens in the future
I hope you understand
as for my name...
well...

HELLO

It's your proofreader,
darkdoll25!
Actually, I'm a typesetter and
Quality Checker. I think. You know what?
I'm a jack of all trades.
